Forms part of our Environmental Sustainability Management Program

We will pursue the conduct of our business in a manner which creates minimal environmental impact, conserves resources and promotes environmental sustainability.

Our aim is:

- To prevent pollution and damage to the environment.
 - To actively participate in the improvement of the environment
 - To protect the safety and well-being of our staff and the public
 - To reduce carbon omissions and participate new forest generation program
-
- We will endeavour to take our objective consideration of public amenity in conducting our Company activities at all times.
 - We will pursue & endeavour to conform to reasonable community expectations of environmental performance.
 - We will comply fully with regulatory & legal environmental requirements.
 - We will consider the environmental impact of all suppliers & company proposals prior to their implementation to ensure compliance with applicable regulations.
 - In design, purchase, operation and maintenance of the equipment, systems, products and procedures for the protection of the environment will be an important factor for consideration.
 - We will document & implement contingency planning & proper responses to potential environmental incidents in order to minimize health, safety & environmental risks.
 - We will educate and train our employees to understand the environmental issues and the need for responsible attitudes to ensure continued improvements in environmental protection.
 - We will assist and support the development of public policy, which encourages environmental sustainability and the protection and enhancement of the environment.
 - We will encourage employees to understand and ensure the implementation of the aims and objectives of this environmental policy and encourage and promote:
 - Recycled fibre utilizing waste paper
 - New technique fibre utilized from sugar cane waste
 - Virgin Fibre utilized from Managed Forests.

We make this commitment with a sincerity, to which we will always endeavour to strive for a greener world.
